

CSG Champion Cup Info

The CSG Champion Cup is a competition that will run at every CSG event throughout the 2010-2011 Season, so teams are not only competing against teams at the competition that they attend, but against all other teams that compete with CSG all season long!

All teams that compete with CSG qualify and are automatically enrolled in the 2011 Champion Cup race. Champion Cup standings are based on the average of the three highest scores by that team throughout the season, so the more times you compete, the better chance you have to win. Keep in mind that if you attend a two-day event you will receive two scores toward the Champion Cup race...a Saturday Score & a Sunday Score, so in only 2 events, you may have enough scores to put your team at the top!

CSG will recognize Top 10 teams in the following categories:

- ❖ All Star Cheer Level 1
- ❖ All Star Cheer Level 2
- ❖ All Star Cheer Level 3
- ❖ All Star Cheer Level 4
- ❖ All Star Cheer Level 5/6
- ❖ School & Recreation Cheer
- ❖ Dance

*Scores will only be determined by level, so 3 performances must happen in a single level in order to qualify for that level. A team can rank in the Top 10 for multiple levels, but cannot win the Champion Cup in more than one level. If this were to happen, they would be crowned the Champion Cup winner for the higher level & the Champion Cup would go to the runner up at the lower level.

Champion Cup Winners will receive the following:

- ❖ Large Cup Trophy to display at your school or gym
- ❖ Special Award for Coaching Staff
- ❖ Champion Cup Winner Graphic to place on their team website
- ❖ Team name/logo place on our website in the Champion Cup Hall of Fame
- ❖ Featured in future CSG advertising & marketing materials
- ❖ Discounts on team apparel from WAM Promos

Champion Cup Top 10 will receive the following:

- ❖ Champion Cup Top 10 Graphic to place on their team website
- ❖ Discounts on team apparel from WAM Promos

The results will be updated the Wednesday following each event & uploaded to the CSG website along with the results from each event.
